SUMMARY

Fifth-semester Computer Science student at BINUS University with a strong interest in technology and software development. Experienced in building software projects, collaborating across teams, and transforming ideas into practical solutions. Equipped with a broad technical foundation and strong problem-solving, communication, and adaptability skills, with a continuous interest in exploring new technologies and development approaches.

EDUCATION

BINUS University

Sept 2024 - Present

Bachelor of Computer Science - Software Engineering

- Cumulative GPA : 3.65 / 4.00
- Freshman Leader & Freshman Partner — Assisted 20+ new students in adapting to campus life
- Relevant Coursework : Algorithm and Programming, Data Structure, Machine Learning, Database Technology

SMA Islam PB Soedirman

Sept 2022 - Jun 2024

High School Diploma | Science Major

- Acceleration Class
- 1st Runner-Up GEBYAR MATEMATIKA 2023 held by Indraprasta University (National)

PROJECTS

Multimodal Rice Field Segmentation & Yield Estimation

Apr 2026 - Aug 2026

Team Lead & Machine Learning Lead | U-Net, CatBoost, Sentinel-1/2

- **Led a team of 3** through the full ML pipeline, from satellite data acquisition (Sentinel-1/2, BPS) to national rice yield estimation for a national data mining competition
- Built a U-Net segmentation model **achieving 78% Dice Score and 71% IoU** on paddy field detection
- Reduced yield **prediction error by 1.70% MAE and 0.65% RMSE** by integrating segmentation features into a CatBoost regression model

Card Guard : Banking Fraud Detection

May 2026 - Jun 2026

Project Lead & Machine Learning Developer | Python, Scikit-Learn, REST APIs

- **Led a 4-member team** building an end-to-end fraud detection system, from data pipeline to API integration
- Improved fraud recall **from 37% to 73% by applying SMOTE** and switching Logistic Regression to Random Forest
- **Built REST API endpoints** in Python to serve ML predictions to the web backend

Clash of BaNG : Interactive Troop Showcase Website

May 2026 - Jun 2026

UI/UX Designer & Frontend Developer | HTML, CSS, JavaScript

- **Designed and built a responsive** gaming community platform from Figma wireframes to production, extending scope beyond the original assignment
- **Developed an AI-powered chatbot in Python**, using custom game documentation as its knowledge source, to help users find game-related info
- **Implemented multi-step registration forms** with client-side validation and real-time error handling

- Led a 4-member team building a gender-inclusive ticketing system aligned with SDG 5, integrating dynamic seat selection with real-time booking state
- Built a responsive frontend connected to a Java backend for session authentication and live booking updates

ORGANIZATIONAL EXPERIENCE

President of HIMTI Bekasi 2026 / 2027

Mar 2026 - Present

HIMTI BINUS University

- Lead regional operations, strategic initiatives, and student engagement across academic and professional
- Grew cohort registration by 50%+ through targeted engagement programs
- Oversee cross-region collaboration spanning 6 regions and 500+ participants

Vice Chairman of ICPC 2026

Sept 2026 - Present

HIMTI BINUS University

- Coordinated 100+ committee members and 150+ participants for the international ICPC event, collaborating closely with faculty members.
- Managed volunteer operations, including task delegation, scheduling, and on-site coordination.

Previous Roles :

- Chairman of Workshop HIMTI Bekasi (Partnered with CTI Group, the largest IT distributor in Indonesia)
- Secretary, Techfest 2025 (400+ national participants)
- Vice Chairman, Sesvent 2025 (500+ participants, 6 regions)
- Event Coordinator & MC, HILET 2026

PUBLIC SPEAKING EXPERIENCE

Speaker LDKCP 2026

July 2026

HIMTI BINUS University

- Delivered a session on personal branding and leadership to incoming HIMTI members, drawing on experience leading 5+ technical projects and a 500+ participant regional organization

Games Master of Ceremonies

Sept 2025

HIMTI BINUS University | TECHNO 2025

- Hosted and led interactive ice-breaking sessions for 350+ hybrid participants (onsite and online), driving high audience engagement and energy.

TECHNICAL SKILLS

Programming Languages: C, Python, MySQL, JavaScript, HTML, CSS, Java

Developer Tools: Git, Github, Visual Studio Code, Eclipse, Dev C++, FastAPI, Docker

Networking Tools: Cisco Packet Tracer

LANGUAGE

- Indonesian (Native)
- English (Intermediate)
